**Cultural Evolution: *HOW***  
***DID WE GET HERE?***

## Fault Lines Beginning to Appear?

## *What is Powering Performance in your Organization?*

## Evidence of “Three P’s” Powering both Performance and Culture...

- Continuous Improvement Tools feel abstract and disconnected to the business – *“Here are some great tools, now go find a problem so you can practice the tool!”*
- A *“hidden factory”* exists to generate metrics and data that few folks understand or use
- Meetings are cancelled when certain personalities can’t attend
- Meetings feel like an *“in addition to the work...”* as opposed to an *“enabler of the work...”*
- Teams often feel like a failed social experiment – performance predicated on the unique combination of personalities
- Default response of leaders – *“It is just easier if I do it myself...”*
- Changing the *“Culture”* is viewed as both the *“problem”* and the *“fix”* so lets do more training and launch more initiatives

## Still uncertain...

April 2016 Edition, Harvard Business Review

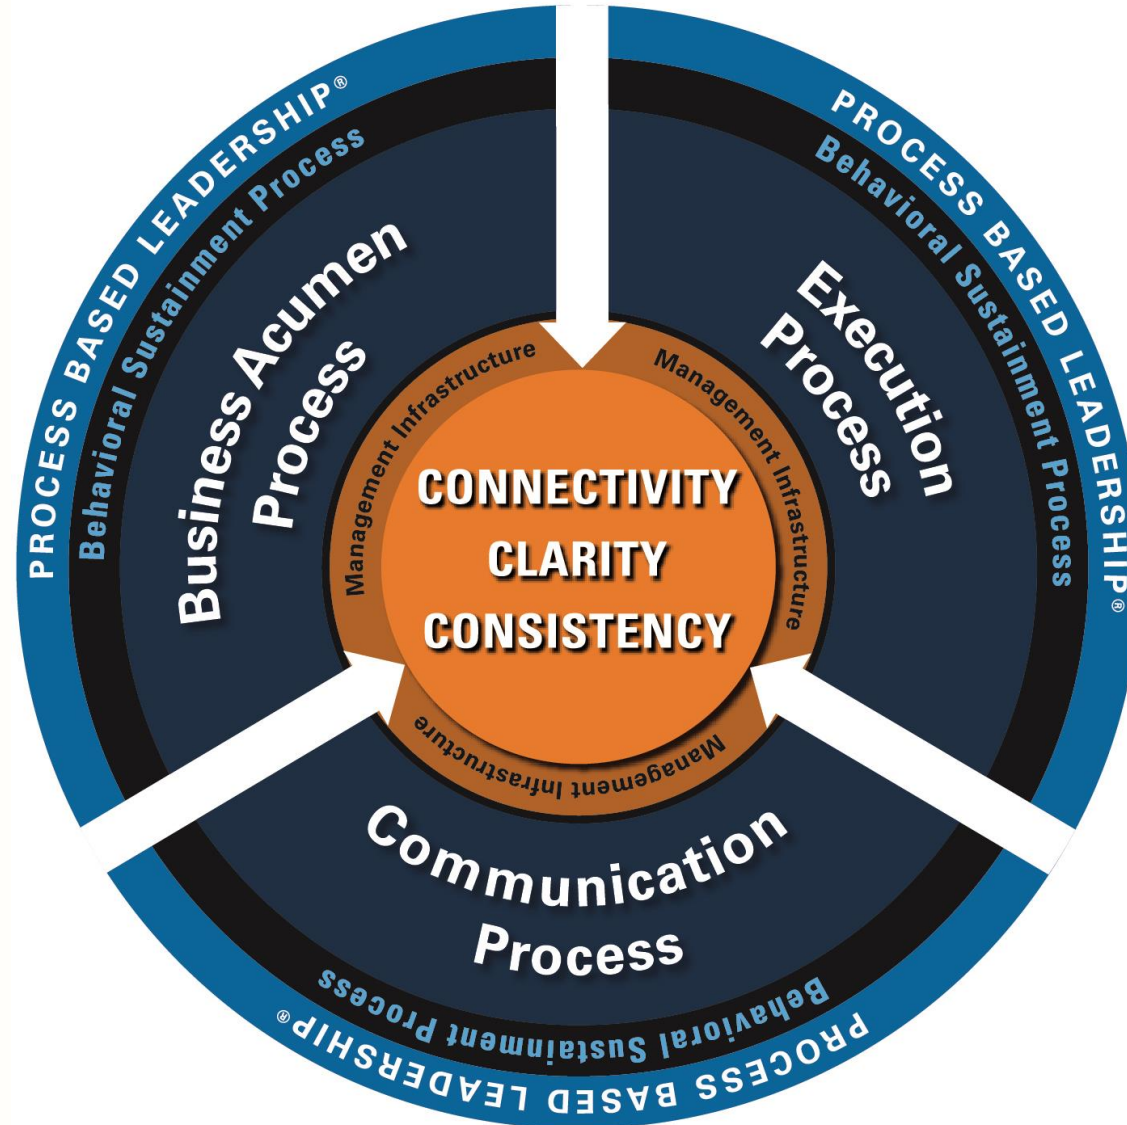

*“The underlying issue of virtually every program, initiative, and well intentioned transformation, is that in the absence of robust business acumen understood and executed within every team, the impacts are never fully realized.”*

## Business Bootcamp:

*Future  
Proofing your  
Business*

***STABILITY =  
AGILITY***

## Bootcamp: Business Acumen Process

1. Metrics are ***“Active Positioning Devices”*** not ***“Passive Reports”***
2. Metrics are used to **Educate, Facilitate, and Motivate**
3. **Visual Controls** - Metrics are electronically linked through a visible and auditable process – ***Single Source of Truth***
4. Every team has the capacity to answer the question of ***“Are we Winning or Losing?”***

Overall Metric Performance

## Execution Process

1. Execution is defined as “Doing” not “Feeling” *“What have you done since our last meeting to move our business forward?” (Prerequisite: Assumes knowledge of Metrics that define Winning and Losing-Robust Scorecard)*
2. Metric performance determines when, where, and how to execute – *Thermostatic Execution*
3. Collective Accountability versus Selective Engagement powers the business – *The biggest demotivating factor in teams today is the disparity of engagement*
4. A process exists to Measure Engagement

## Bootcamp: Communication Process

1. *Leaders in no more than **SIX** hours of meetings per week – “**Must Deconstruct to Reconstruct**”*
2. *A cascading rhythm exists that is powered by the Scorecard:*
  - ***Metric data populated prior to the meeting, visually projected in the meeting – Sets the tone***
  - ***Are we winning or losing?***
  - ***Metric performance drives actions and affirmation***
3. *A robust Pass Down process exists that can be validated at the end of each communication cycle linked to Daily Tier Huddles*
4. *Meetings are viewed as “**the Enabler of,**” versus an in “**Addition to**” the business*

## Behavioral Sustainment Process:

*Leadership  
Bootcamp:  
Getting  
Leaders on  
Offense, Not  
Defense*

## Bootcamp for Leaders

1. Moving from Defense to Offense
2. Articulating the Compelling Business Need – **“Are we winning or losing?”**
3. Learning to Manage by Process, not Personality
4. Creating a **“From this day forward..”** environment
5. Embracing the power of **“Straight Talk”**
6. Making Performance Management Meaningful by ensuring **Data=Dialog=Development**

LeadershipGPS

## **Sustainable Cultures of Clarity, Connectivity, and Consistency occur only when:**

- A robust Business Acumen Process exists that translates metrics into the capacity to answer – *“Are we winning or losing?”*
- A robust Execution Process exists that makes accountability visible, personal, and measurable
- A robust Communication Process exists that drives a non-negotiable cadence of both daily and weekly priorities
- A robust Behavioral Process exists that defines demonstrative expectations, demonstrates an appreciation for individual communication styles, and fully grasps the power and pitfalls of multigenerational teams
- A robust Team Based Assimilation and Orientation Process exists that drives a sustainable *“Way of Work”*
