SO YOU WANT TO BE A CNC MACHINIST

CNC Machinist - What do they do?
- Machining and Stamping
- Plans Machining
- Setting Tolerances
- Precise Measurements
- Welding and Drafting
- Routine Maintenance
- Computer Programing
- Trouble Shooting

Education - What do I need?
- High School Diploma/GED
- Accredited Trade School Program

Skills Needed - What skills should I have?
- Analytical Skills
- Critical Thinking
- Physical Stamina
- Technical Writing
- Computer Application
- Additive Manufacturing
- Manual Dexterity
- Mathematics Skills

Estimated Salary - I can make what?
- Entry Level $47,000
- Median $55,000
- Top Earners $64,000

Five Fields That Benefit From CNC Machinist
1. Aerospace
2. Commercial
3. Electronics
4. Medical
5. Optical
